

KapCC STEM VISION

A diverse, internationally competitive, and globally-engaged workforce of scientists, engineers, and well-prepared citizens.

The Kapi'olani STEM Program strives to enhance the quality of instruction and outreach in science, technology, engineering and math (STEM) at Kapi'olani Community College. Students are supported in their pursuit of the Associate of Science in Natural Science degree, in their transfer to four-year degree programs, and in their preparation for today's workforce. The program explicitly focuses on promoting diversity, with emphasis on supporting Native Hawaiian and other underrepresented populations in the STEM fields.

The STEM Center Facility at Koki'o is the home of the STEM Program and is a gathering place for students and faculty. The center offers peer-mentoring services, tutoring, computer workstations, and science/math educational resources for all KCC students daily, including evenings and weekends.

Send your completed application packet to:

Mrs. Keolani Noa, STEM Outreach
Coordinator
Kapi'olani Community College,
Math/Sciences
4303 Diamond Head Road, Kalia 101
Honolulu, HI 96816

The STEM Program provides students with:

1. A "sense of place" on campus
2. Tools to define clear academic and career goals
3. Hands-on experience and field-specific skill-building
4. Funding and work opportunities
5. A community of support, the STEM team of faculty, students, and coordinators

The HāKilo Summer Experience is made possible through funding from National Science Foundation award HRD-1023665.

The University of Hawai'i/Kapi'olani Community College is an Equal Opportunity/Affirmative Action Institution
