Mauka to Makai

We provide a support system for all levels of your academic journey; from first-year to the second-year transfer process. The broader impact is on all degrees throughout the campus for Native Hawaiians and other underrepresented students, with STEM and Hawaiian Studies emphasized. An academic focus on Hawai‘i’s environment and ahupua‘a system, which provides a direct relationship for sustaining our students and the place in which they live. Your collaborative work space located in KCC Manono building is also enhanced with Māla Maunuunu (garden), which helps to sustain lā‘au lapa‘au and our ancestral practices. A diverse, competitive, local, global, and career engaged program to prepare you for internship and career opportunities.

KAPI‘OLANI COMMUNITY COLLEGE
Summer Bridge 2017

STEM and Hawaiian Studies Program

E lawe ke a‘o a mālama a e ‘oi mau ka na‘auao

Take what you have learned and apply it.

June 12 - July 21, 2017
Application Due: April 5, 2017
The Kapiʻolani Community College Summer Bridge is an intensive six-week program for recent Hawaiʻi graduates interested in the exploration of careers in cultural Science, Technology, Engineering, and Math (STEM). To help students establish a strong math and science foundation, students are mentored by college faculty and student peers. The program runs Monday-Friday from high school 9:00 a.m. to 4:00 p.m. with a two-hour math course, group study time, and hands-on activities.

In the program, students explore ecology through ʻaina-based experience. Past projects have included Kalo microbiology, biodiesel processing, and ahupua’a level water quality assessment in urban Oʻahu. Students meet professionals, participate in service learning, and through direct experience, learn about careers in environmental fields from natural resource management to food sustainability to oceanography.

Kapiʻolani Community College
Academic Advancement Program

The program offers peer mentoring, a dedicated collaborative work space, paid research opportunities, and multiple internships. Upon completion of your two year degree, students continue their education by transferring to a four-year institution in preparation for entering the workforce.

Preferred Eligibility:
- Complete three or more math courses
- Complete three or more science courses
- Up to two years of Hawaiian Language
- Plan to attend college in Hawaiʻi

Application Requirements:
- Completed Summer Experience Application
- One letter of recommendation from a high school teacher, counselor, or administrator
- A copy of your high school transcript
- Personal Statement: Tell us your story
